PASSION FRUIT

NATURAL FRUIT PUREE

Passion fruit is a relatively recent crop to Vietnam, the majority of the world's crop originates from Columbia. Vietnam's climate is supreme for many exotic fruits and it only made sense to cultivate this fruit which is gaining popularity worldwide. The prized varietal is Tainon One, the seeds of which originate from Taiwan. The Vietnam government is very strict towards importing seeds and cultivating new crops and starting this varietal wasn't easy. This varietal, slightly smaller in size compared to the Columbian strand has a very consistent flavor and is able to weather changes in climate fairly well. Desired for its superior aromatics and its bright complex tropical flavor.
