PERSIMMON FUYU

NATURAL FRUIT PUREE

Located in the produce mecca of Sangju is the Nakdong River basin, which produces 70% of the Persimmon grown state-wide. Responsible for these gorgeous fruits is third generation farmer Young-chul Soung. He cultivates the national fruit of South Korea, the Fuyu Persimmon 1300ft above sea level. "Chucheok" symbolizes the harvest and ancestral thanks and giving here. The Persimmon is a centerpiece of this tradition and markets all over the country will flood with these beautiful orange fruits. The Fuyu variety of Persimmon is the sweeter of the two main varieties and is a fundamental fruit to this revered culture. Prized for it's beautiful firm pumpkin colored tannic skin, fibrous pulp and incredible flavor. The flavor profile is truly unique, emulating characteristics of sweet tomato, papaya and butternut squash.

Origin: Sangju, South Korea

FLAVOR PROFILE

Nose: Mild notes of papaya and squash

Flavor: Fibrous texture with flavors of sweet tomato, papaya and butternut squash

SPECIFICATIONS

Process: Proprietary minimal whole fruit process, presented in its natural state, capturing the true flavor of the fruit and natural essential oils – preserving peak freshness
